Our wide and deep industry expertise combined with today's emerging technologies drives solutions that are tailored to our client's goals.

Our unique **A.I.M. METHODOLOGY**, Assess Improve Manage, ensures that we deliver unmatched efficiencies on time, while our team of professionals is dedicated to developing, implementing, and maintaining your infrastructure for mission success.

## CLIENTS

FEMA

## CORE COMPETENCIES

**CYBER** Strict compliance with Federal and State agency mandates through Governance and Policy support and continuous monitoring of Executive and Legislative branch memo's ensures timely response to transformation.

**AGILE DEV/SEC/OPS & TRANSFORMATION** Today's rapid development and quick deployment demands require a commitment to Agile methodology and training. our Operations and Maintenance support increases our client's operational performance, system, and data availability, and overall efficiency through strong operations and maintenance teams. Additionally, we provide secure and scalable solutions that fit government agency objectives and mission needs.

**CLOUD SERVICES** Excelicon provides infrastructure, migration, architecture, security, and overall post deployment support for mission critical programs. Additionally, we work to educate our customers on the adaptation and implementation of cloud strategies in their strategic plans.

**IT MODERNIZATION** Helping our government partners meet strategic and tactical IT goals, employing innovative thinking and emerging technologies. Excelicon's commitment to leading the way in emerging technologies like Artificial Intelligence, Machine Learning, Robotic Process Automation, and modern development techniques such as no code - low code, allows our clients to achieve their goals faster and with improved user experiences.

**DATA ANALYTICS** Using the latest technology such as Tableau and Databricks, our team provides actionable information to our clients for decision making and ability to achieve their mission goals. Through our data analytics, we have been able to reduce waste, fraud and abuse, work with Data Governance Council and provide Data Modernization services. Lastly, through Data Analytics, our client are able to transform data into information that is essential to making thoughtful data-driven operational and analytical decisions.

**MANAGEMENT SERVICES** Excelicon's experience ranges from project and program management, Executive Support Services, CPIC/Budget support, and pre-acquisition market research.
